Hello Sarah,

Thanks for your help. Is there a way we can have the illegal dumping on Sayre cleared up today? If not, I already made adjustments to the CARE schedule so they may go tomorrow and Friday to clear the obstruction on the public right of way. Thanks for the clarification.

Yes, if you can provide that data that would be really beneficial for our annual report. Yes, I do mean citations. If there is any data surrounding illegal dumping that you may send over I am sure that it would help us.

Thank you, I will let Eve know.

Thanks again,

**Cristian Tafoya**, Caseworker

I've left it to the team to set that schedule around what you've already placed on the CARE sheet. If you placed it on the CARE sheet then they will go on that day. They will clean what is in the public right of way, nothing on private property.

I can send you what we are able to give you (probably up to last Friday or the Friday before) but we can not give any year end data until the early part of July. It takes time to reconcile the data. What do you mean by illegal dumping notices? Citations in your district? Probably not many.

I've discussed this property with Eve numerous times. I have sent people over to that address more times than I can count. I can continue to send people there but maybe Building and Safety opening some form of code inspection might be more beneficial if the neighbors are truly concerned that the people are doing something they shouldn't be

doing.

Hello Sarah,

When is CARE going to go to Sayre St and Arroyo. At Sayre, is your team going to clear out the illegal dumping that in front of the home? Lastly, is it okay if I place these locations in the district's regular CARE schedule.

In addition, I know the fiscal year is not over; however, I was hoping you may provide me with statistics of the following questions:

**How many Illegal dumping notices have been issued?**

- **How much Tons or lbs of bulky item pick up has been serviced?**

The district is sending out a mass mailer and they were hoping you may provide us the answers for these questions. We have a deadline of May 29th

Also, Eve is clearing old casework of hers and has a specific case about recycling bins. The property owner has dozens of bins in their property and she was wondering if there is some special circumstance at this property or is it possible to enforce. The property is located on 9105 N Morning Glow Way.

Thank you,
